

BRITISH ORCHARD CENTRE

Training Together

We are pleased to announce, that British Orchard Centre, a NCFE and KHDA approved training centre, is able to offer UK CACHE accredited certifications in Early Years Education, across Dubai, Sharjah and Abu Dhabi.

We offer a variety of CACHE certifications and a selection of CPD short courses, which can be completed at various locations across Dubai, Sharjah and Abu Dhabi.

We currently offer CACHE early years courses for Level 2, Level 3 and Level 5. CACHE qualifications are regarded as the gold standard in early year's teacher qualifications across the world and are approved and licensed by KHDA.

Throughout your CACHE qualifications, you are continuously tracked on your progress, by your assessor and our trained professionals at British Orchard Centre are always available to offer advice and support throughout your entire course.

Not only would you attend tutor-led workshops, at a location of your choice, you would also be subject to a variety of teaching methods, which would help maximise your learning experience. These methods include online learning activities, the use of our online portal, which enables you to access learning information and tools from all locations and also quality guidance from your assessor.

For some of our courses, our students are required to undertake a volunteer placement, within an early years setting. We are proud to be the only centre in the UAE, to offer all of our students, the opportunity to complete their volunteer placement hours at any British Orchard Nursery Branch near them.

As part of our commitment to encourage individuals to continuously develop their skills, we have worked to develop a wide range of short continued professional development (CPD) courses, which are available online within a user friendly portal that can be accessed by you anywhere, anytime, to meet the demanding needs of your lifestyle.
